APPROVING LICENSING CONDITIONS: FIRE PREVENTION

PROBLEM SOLUTION EXPECTED RESULTS Impossibility to conduct licensed Establishing market access rules Reducing the administrative burden activities legally due to a lack of market by approving licensing conditions on business access rules (licensing conditions) (Draft Resolution of the Cabinet (number of fire-prevention activities of Ministers of Ukraine) and services, which are subject to licensing, decreased from 17 to 7) Simplifying doing business

APPROVING LICENSING CONDITIONS: COMMERCIAL FISHING OF BIORESOURCES

PROBLEM

 Impossibility to conduct licensed activities legally due to a lack of market access rules (licensing conditions)

SOLUTION

 Establishing market access rules by approving licensing conditions (Draft Resolution of the Cabinet of Ministers of Ukraine)

- Effective implementation of international obligations
- → Easier market access for license holders
- Transparent requirements to the license holder's activity

CLEANING THE REGULATORY FIELD

PROBLEM

 Legal uncertainty because of obsolete, illegal and ineffective regulatory acts

SOLUTION

Abolish and declare invalid
 367 illegal and obsolete regulatory
 acts

EXPECTED RESULTS

Increase legal certainty
 of the applicable legislation
 in Ukraine, in particular for foreign
 investors. Inspection bodies lose
 the option to inspect enterprises
 to determine the implementation
 of obsolete rules and regulations

DEREGULATION IN THE IT-SECTOR

SOLUTION PROBLEM EXPECTED RESULTS Rules to approve the real estate Removing telecommunication Startup procedure for construction are applied equipment from a list of construction telecommunication equipment will to the installation of telecommunication facilities, to which the procedure be reduced by 1 month equipment that makes the procedure of approving pre-construction 30,000 business entities will be more complicated and construction works is applied provided with improved business conditions Using increased rental rates (Amendments to Resolutions for equipment (40% instead of 18%) of the Cabinet of Ministers of Ukraine Annulling the grounds for corruption #461 and #466 from 13/04/2012) Improving the quality of communications and coverage areas Clarifying the rules of determining The opportunity to receive additional the size of rental rates 50 million hryvnas in the budget (Amendments to the Resolution per year of the Cabinet of Ministers of Ukraine #786 from 4/10/1995)

ABOLITION OF THE MINIMUM PRICE FOR NOTARY SERVICES

PROBLEM SOLUTION EXPECTED RESULTS Abolition of the minimum 1% rate Limitation on the minimum price Transparent pricing in a competitive for notary services that leads to: of payment for notary services market (Decree #762 from 10/07/1998) Reducing costs to purchase the real distorted competition estate property shadow pricing Reducing the cost of notary services increased prices for services

IMPROVING THE PROCEDURE TO CALCULATE THE NORMATIVE MONETARY VALUE OF LAND PLOTS

PROBLEM

- Non-transparent procedure and manual calculation of the normative monetary value of land plots:
 - corruption in relations between the state and the business
 - local budgets receive less revenues

SOLUTION

- Automated calculation
 of the normative monetary value
 of land plots without the interference
 of officials
 - (The adoption of the Resolution of the Cabinet of ministers of Ukraine)
- Changing the procedure
 of calculating the normative monetary
 value of land plots in settlements
 (Order of the Ministry of Agrarian
 Policy and the Ministry of Regional
 Development)

- No cases of the understated monetary value of land plots due to the intervention of officials
- → Increased revenues in local budgets from the land tax and lease payments
- Getting the information on the monetary value of land plots by applicants in one day
- Eliminating the corruption component

MAKING AMENDMENTS TO THE STANDARD LAND LEASE AGREEMENT

PROBLEM

- Standard land lease agreement is not in conformity with the law of Ukraine "On Land Lease":
 - a significant number of refusals to register land lease rights
 - arising legal disputes as a result of collisions

SOLUTION

 Bringing the standard agreement's content into conformity with current legislation

- Reduced number of refusals with regard to state registration of lease rights for land plots
- Reduced number of legal disputes related to conflicts of the law on land lease (currently, 20 thousand per year)
- Reduced cost of preparing land lease agreements

OIL AND GAS DEVELOPMENT REGULATIONS

PROBLEM

- No modern regulations for development of deposits.
 Inconvenient regulatory compliance procedures in developing oil and gas deposits due to obsolete regulations (some of them are dated by 1984)
- High corruption risks of regulatory bodies

SOLUTION

- Adoption of development regulations adjusted to current needs (Order of the Ministry of Natural Resources)
- Presentation of regulations in a single document, provisions of which subsurface users will adhere

- Updated national regulatory regime that takes into account the geological exploration and the development of unconventional hydrocarbon systems deposits as well as makes a procedure to prepare the permission documentation
- Reducing the legal uncertainty and as a result, corruption risks

REPEAL OF A BAN TO MIX DIFFERENT GRAIN TYPES

PROBLEM SOLUTION EXPECTED RESULTS Additional costs and disadvantages Repeal of a ban to mix grain Reduced logistics costs for grain for businesses due to the unjustified storage and transshipment (Amendments to the Order ban on mixing grain on elevators of the Ministry of Agrarian Policy Increased production capacity #661 from 13/10/2008) of domestic elevators Increased production capacity of domestic ports Increased exchange earnings and tax revenues in the state budget of Ukraine
